

Are you looking for an easy solution to symptoms caused by menstrual cramps, PMS or menopause?

Then let us introduce you to Angelica Dang Gui. Dang Gui (or Chinese Angelica root) is a favorite herb among Chinese women. It has been used for centuries in the treatment of a wide variety of female complaints from PMS through menopause. It is an overall blood and Chi tonic herb that improves circulation, reduces anemia, eliminates blood clots, and is eminently useful for women suffering from difficult menstruation, the physical and emotional symptoms of PMS, or the physical symptoms of menopause that are associated with a reduction in the production of estrogen.

Sometimes called Dong Quai, Angelica, or Dang Gui, it has often been referred to as the "female ginseng" and is excellent as an all purpose women's herb. Next to Panax Ginseng, the root of Angelica is undoubtedly the most honored and respected herb in China, and shares an equal reputation among users in the rest of the world.

Angelica has been used for centuries in China for regulating the menstrual cycle and easing menstrual pain and cramping. It is used to promote circulation, to regulate the menstrual cycle and stop discomforts of menstruation, premenstrual syndrome (PMS), as well as menopause. In Western herbal terms, it is used for dysmenorrhea (painful menstruation), menorrhagia (too much menstruation) and amenorrhea (too little, or no, menstruation). It has also proven helpful for relieving many of the symptoms experienced during menopause (hot flashes, night sweats, vaginal dryness, dry skin, irritability, mood swings, sleeplessness, brittle bones, etc.). And, it can be used to help women regain normal menstrual cycles after taking birth control pills.

Angelica Dang Gui is a safe and effective estrogen replacement therapy, which does not cause any negative side-effects. It is primarily used in traditional Chinese medicine to nourish the body and promote the circulation of blood while it balances out hormone levels, providing relief from all of the symptoms of menopause.

We carry only the highest quality Angelica Dang Gui in easy to use capsules or a potent liquid tonic

How to best use Dang Gui?

It is available in two forms (either capsules & liquid)

ANGELICA DANG GUI CAPSULES

are available in bottles of 100 capsules. Each capsule of Angelica Dang Gui contains a blend of 275 mg of 5:1 pure yield concentrated Angelica Sinensis Root extract (equivalent to 1.375 grams of un-concentrated Angelica), and combined with 275 mg of naturally grown un-sulfured Angelica. This combination of 5 to 1 concentrated extract and natural Angelica herbs creates a unique compound with optimum potency and absorption. Recommended Dosage: 2 capsules 2 times per day.

TANKWE GIN

comes in bottles of 150 ml. This pleasant tasting herbal tonic is in liquid form which may be added to your favorite tea or other beverage. This manufacturer uses only the finest quality herbs to make this formula. The ingredients are: angelica dang gui root, ligusticum root, rehmannia, white peony root, codonopsis root, astragalus, poria fungus, licorice root, distilled water, and honey. Recommended Dosage: 1 Tbsp. - 3 times a day.
