

Enjoy those special moments with your honey assured of having energy and stamina

Are you looking for an all-natural Chinese herb that can fight fatigue and heighten your overall energy? Let us introduce you to Plum Flower Brand's Cordyceps (Dong Chong Xia Cao) an herbal supplement that has been used for thousands of years to help build body strength, improve organ functioning, strengthen the immune system and promote healthy sexual activity.

What are Cordyceps?

Cordyceps is a fungus grown above 12,000 feet where the temperature is low and the oxygen is scarce. Because it was always expensive, and grown in very small quantities, Cordyceps was never exported, and kept for the exclusive use of the political, business and sports elite.

What does it do?

Cordyceps has been proven by ample medical research to be a powerful energy-builder. Cordyceps also benefits the glandular, circulatory and immune systems -- producing enormous amounts of endurance and stamina. It is superior to the most potent forms of Ginseng, the better-known energy herb. All this is supported by many Chinese clinical tests -- including the ones at Hunan Medical University and the double blind, placebo-controlled trials at Beijing Medical University.

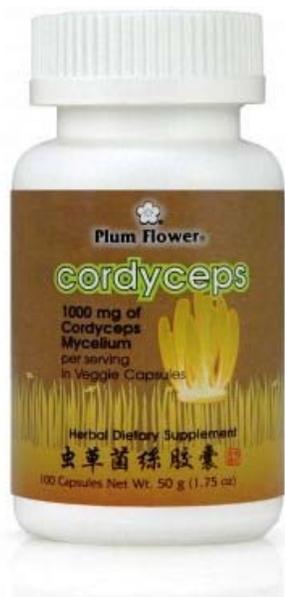

Is Cordyceps an aphrodisiac?

Although it is widely used as an aphrodisiac, its true value is how it promotes life extension and balances the body treating both Yin and Yang elements, while stimulating optimum organ functioning, which allows the body to operate at its highest levels.

Are the results immediately evident?

After taking Cordyceps for only a few days you will start to feel revitalized, with a decided improvement in energy and stamina. However, as with most Chinese herbal formulas Cordyceps requires using the formula for a few weeks to truly feel the full impact of its power. Actually we're hoping you'll consider a long term commitment to Cordyceps taking it daily for at least 60 to 90 days. By the end of that time, we're sure you'll be very impressed with the change to your overall health and well-being.

How to best use Cordyceps (Dong Chong Xia Cao)
