

MEDICINAL WINES THAT STRENGTHEN THE BODY AND INCREASE STAMINA

HU GU REN SHEN JIU AND LU RONG REN SHEN JIU

Don't miss this opportunity to experience—without a doubt—two of the most legendary Chinese herbal formulas in the Martial Artist's pharmacopoeia **HU GU REN SHEN** and **LU RONG REN SHEN**. Although these training formulas have distinctly different applications, what they have in common is that they are prepared with alcohol to create powerful medicinal wines ...whose effects are no less than amazing.

A testimonial to this is fact is that in addition to their long history of use by martial artists, these two renowned tonic formulas are among Taoism's most coveted Imperial Elixirs.

WHAT MAKES THESE TWO MEDICINAL WINES WORTHY OF THIS CLAIM?

Although there are some similarities between **HU GU REN SHEN** and **LU RONG REN SHEN** make no mistake, they are used for entirely different purposes. While both formulas are noted for their ability to increase energy, **HU GU REN SHEN** is the formula of choice when bone and joint strengthening is a priority.

HU GU REN SHEN has exceptional abilities to strengthen bones and joints, especially in the lower body. Something that is particularly valuable to martial artists who practice styles that use deep stance as well as those that practice stance work such as: standing meditation, *chi sao*, etc.

Held in equally high regard, LU RONG REN SHEN is favored when strengthening of the immune system is desired. In addition to increasing energy & power, Lu Rong, is famed for its ability to elevate hormonal levels, causing an increase in sexual energy which is critical for circulating the vital energy and advanced meditative practices.

Although, LU RONG REN SHEN does possess bone strengthening capabilities they are minor in comparison to that of HU GU REN SHEN . If Taoist Sexual Practices and circulating the vital energy is your focus, LU RONG REN SHEN would serve your purposes well.

We are certainly pleased to introduce you to these amazing formulas! The raw herbs will require aging to make a medicinal wine; however, we will provide easy-to-understand processing instructions which will make the process painless. Traditionally Taoists used a daily dosage of one shot-glass full (approx. 50ml). Long-term use is recommended to maintain heightened strength and stamina.

The quality of the herbs that are used to prepare these particular ingredients is very important if you are to realize the highest level of the desired effects. For that reason, we prefer to prepare these formulas with only the highest grades of ginseng, deer antler, etc. We use deer antler that was purchased during the rutting or mating season, when it is freshest and the deer's hormones are at maximum levels. Tender new velvet horn with dried blood still in the cartilage is considered of the highest quality. Because we pay strict attention to these details and use high quality ingredients, the resulting jiu's are much more powerful in their effects.

As mentioned, the use of the high quality ingredients will increase the overall effects of these jiu's. While we do make these formulas available on our website, when filling website orders we only use medium grade ingredients. (Which is why the price is so reasonable; an attempt to make them more affordable to a greater number of consumers). However, for those wishing to experience only the highest levels of results, we recommend using our high grade herbs, and we make both available to you today.

seaofchi.com uses only high quality organically grown Chinese herbs and we guarantee their efficacy
