

# WU ZI BU SHEN

*Five Seeds Two Emperors  
Supplement the Essence Jiu*

We take great pride in presenting this sexual enhancement jiu that was developed exclusively for men.

Legend states... that a powerful Chan Dynasty Emperor's excessive loss of seminal fluid as a result of servicing his many wives and concubines is said to

have prompted his request for a formula capable of revitalizing his sexual energy.

The formula that was developed "WU ZI BU SHEN SAN" was an invention of Taoist Sages who were highly motivated (by the probability that failure to produce an effective elixir would

most likely result in their death) a fate they certainly wished to avoid.

Legend aside... over the centuries, the proven efficacy of this formula has made it invaluable for replenishing diminished sexual energy that is the result of excessive loss of semen (having too much sex).

For many centuries Taoist women have praised the effectiveness of this potent sexual elixir.

Our Wu Zi Bu Shen is 100% pure — made from the highest quality organically grown Chinese herbs and we guarantee it's efficacy.

Those who are familiar with the Seven Seeds formula may be wondering how **WU ZI BU SHEN SAN** compares with that legendary Taoist prescription ... let us say that ... it is not by sheer coincidence that some of the herbs found in Seven Seeds are also important ingredients in the **WU ZI BU SHEN SAN** prescription. What makes this formula different is the inclusion of high quality Korean Ginseng (Ren Shen) and Deer Horn (Lu Rong) taken from the tip of the horn ... which are considered the most powerful ingredients in Chinese Herbology and their addition creates what can only be described as a “super-charged” version of the original Seven Seeds formula. And, while Seven Seeds is also recommended for use in cultivating energy for meditation, the **WU ZI BU SHEN SAN** formula is used exclusively for carnal purposes in Taoist Sexual Practices.

## ***What exactly can you expect to experience?***

**WU ZI BU SHEN SAN** is famed for its ability to supplement the essence (to replenish the Jing or sperm) and to powerfully tonify the Chi (energy).

### ***What do the individual herbs actually do?***

The five seeds will increase sperm production, and will treat kidney yin deficiency and take care of such problems as impotence, nocturnal emissions, and will increase male sperm count, as well as spermatorrhea, impotence, premature ejaculation and nocturnal emissions. While the last two herbs in the formula Ren Shen and Lu Rong will powerfully tonify the Yang Chi, are a strong kidney tonic, while at the same time they will strengthen kidney yang, and alcohol (used to make this jiu) will escalate the healing process.

## How to best use this formula?

Traditionally Chinese medicine recommends preparing this herbal formula into a medicinal wine (yao jiu), which soaks the herbs in alcohol for a minimum of 90-days to allow the herbal properties to be properly extracted. Daily dosage would be to drink one 50ml shot glass full, and treatment is recommend for a minimum of 90 days or as long as necessary for optimum energy enhancement. Once prepared, the yao jiu can be safely stored for many years; as a matter of fact, the longer it continues to soak in the alcohol the more powerful its abilities will become.

### Not interested in making a wine?

For those who don't have the time to wait for a yao jiu to age or prefer not to drink alcohol; we will powder the herbal formula and the powder can be added to capsules, or to a smoothie or to juice and drunk that way. There is a \$10.00 extra fee applied for powdering. Daily dosage (for capsules) is 3 caps 3 x daily, when adding the powder to juice/smoothie, mix one heaping teaspoon into 8 ounces of juice/smoothie and drink that 2 x daily. However, we would be remiss if we did not state that while effective when used this way; a medicinal wine does make the formula's effects more powerfully felt. Whether you decide to prepare the traditional medicinal wine or use the powdered herb in capsules or a smoothie, we will provide easy-to-understand processing instructions.
